EXPERIENCE

SMMARTERS SOFTWARE PRIVATE LIMITED | FRONTEND INTERN

June 2023 – July 2023 | Bhubaneswar, Odisha

- Developed frontend features using HTML, CSS, JavaScript, and MongoDB.
- Improved UI performance and worked on secure API integrations.

E-KORS PRIVATE LIMITED | FULL STACK DEVELOPER INTERN

March 2025 – July 2025 | Noida, Uttar Pradesh

- Developed a secure role-based ERP system using the MERN stack.
- Implemented JWT authentication, REST APIs, and CI/CD deployment workflows.
- Worked on MongoDB schema design, validation, and integration testing.

RINEX.AI | INSIDE SALES STRATEGIST

October 2025 – November 2025 | Kolkata, West Bengal

- Worked on lead generation, outreach campaigns, and customer communication.
- Collaborated with teams to improve engagement and business workflows.

PROJECTS

IDENTITY ACCESS MANAGEMENT SIMULATION | NODE.JS, MONGODB, JWT

2025

- Built a role-based IAM system with JWT authentication and secure access control.
- Implemented password hashing, authorization workflows, and role-based permissions.

MALWARE DETECTION SYSTEM | PYTHON, MACHINE LEARNING

2024

- Developed a malware detection platform for identifying malicious URLs.
- Achieved 95
- Used machine learning techniques for cybersecurity threat detection.

VULNERABILITY SCANNER TOOL | PYTHON, LINUX

2025

- Developed a vulnerability and port scanning tool for network security analysis.
- Generated reports for identifying exposed services and security risks.

CERTIFICATIONS

MICROSOFT CYBERSECURITY CERTIFICATE | 2024

Trained in threat analysis, risk management, security operations, and identity protection.

AI FOR EVERYONE – COURSERA | 2023

Learned foundational concepts in AI and Machine Learning.

IMAGE PROCESSING – DUKE UNIVERSITY | 2023

Gained experience in image/video processing and object tracking.

IOT – UNIVERSITY OF CALIFORNIA, SAN DIEGO | 2022

Learned IoT architecture and protocols like Zigbee and MQTT.

SKILLS

Cybersecurity:

Identity Governance
Access Management
Risk Management
GRC
Threat Analysis
Network Security
Vulnerability Assessment

Programming:

C++
Python
JavaScript

Web Technologies:

HTML
CSS
ReactJS
NodeJS
ExpressJS

Databases:

MongoDB
MongoDB Atlas

Tools / Platforms:

Git
GitHub
VS Code
Vercel
Render

EDUCATION

BML MUNJAL UNIVERSITY

B.TECH IN COMPUTER SCIENCE

2021--2025 | Gurugram, Haryana

GPA: 6.57 / 10.0

LITTLE FLOWER HOUSE

INTERMEDIATE | 2020

CBSE – 81.4

GURU NANAK ENGLISH SCHOOL

MATRIC | 2018

CBSE – 80

INTERESTS

- Cybersecurity and Identity Governance
- Secure Application Development
- Problem Solving and Automation
- Football and Team Collaboration
